

Pathways (Community Outreach & Engagement)

Program Overview: Pathways

Pathways is our community outreach program, connecting families to vital resources—including food, clothing, therapy, and medical and dental care—while offering opportunities to give back through community service.

Objective

To empower youth and families to serve, connect, and lead with empathy through impactful outreach events and donation drives.

Why This Matters

Many families face challenges that reach far beyond the basketball court. When access to food, clothing, healthcare, or emotional support is limited, it affects every part of a child's growth and confidence. Pathways steps in to meet those needs, connecting families to essential resources and a caring network of support.

When parents are equipped and supported, kids have the foundation to succeed—in school, in sports, and in life. Pathways is about more than meeting needs; it's about building stability, strengthening families, and creating lasting change in our community.

Program Components

- Holiday Drives – Toys, coats, and food baskets for families in need
- Service Projects – Volunteering at shelters, food banks, or churches
- Donation-Based Events – Camps/clinics where entry is a donated item
