

Game Plan to Employment

Program Overview

Game Plan to Employment is our newest initiative, designed to equip parents, guardians, and families of participants with essential career readiness skills, practical experience, and pathways to employment.

Objective

To provide underserved families with the tools, confidence, and connections needed to overcome financial barriers and succeed in the workforce—bridging the gap between potential and opportunity.

Why This Matters

Many families we serve face generational poverty and limited access to career preparation. By integrating workforce development into our holistic model, we help families break cycles and build stable futures.

Program Components

- Career Workshops
- Job Shadowing & Internships
- Soft Skills Training
- Employment Navigation
- Parent Track – Evening/weekend sessions tailored to adult learners
